Release for Customers relying on AES radio only

To Whom It May Concern:

I, _____ of _____ hold harmless and release any and all liability from CentraLarm Group of Companies, Manchester, NH, for my alarm system monitoring. I understand that my system is using a single AES radio transmitter for alarm communications that can and may fail without notice, causing no alarm signals to be sent or received by the monitoring station. I understand this failure would not dispatch the authorities or other responding authorities in the event of an alarm activation.

I understand that traditional digital monitoring via telephone line is recommended at additional cost.
