

Responding Call List & Authorized Users

Due to the confidential nature of the information contained below, and to avoid a breach in security, do not leave this document unattended at any time in a fax machine, or other. This information should be handled in an undisclosed manner by an authorized individual only. Other than hand delivery, all methods of form submission carry some degree of risk (USPS, courier, fax, email). In signing this form, the subscriber acknowledges this fact and agrees to accept the level of risk associated with their choice of form submission to Tasco Security.

If you feel security has been compromised in any way, please contact our office as soon as possible to change password(s) and access code(s).

Dealer #2900

Customer/ Business Name: _____ Alarm Account #: _____
 Site Address: _____
 City, State, Zip: _____

Responding Call List Updates — Responders to be added in the order listed. To add additional responders or to adjust the order of existing responders with the additions please indicate your intent in the Special Instructions area on page 2 and use as many forms as needed. To remove a Responder see the deletions section on page 2.

- Passwords should be 10 letters or less.
- It is Tasco's recommendation that the individuals listed have their own unique access codes and passwords.
- Alarm Codes are 4 digits (no phone #'s, birth dates, license plate number's, etc. & no codes starting with "91" or "99").
- All authorized users should have a working knowledge of the alarm system and should know how to look for problems before calling for service to avoid unnecessary expense or protection lapse.
